What is DIN 15401?

DIN 15401 is a German industrial standard that specifies the requirements for point hooks used in lifting operations. These hooks are critical components in rigging and lifting assemblies, providing secure attachment points for slings, chains, and other lifting devices. The standard ensures that point hooks meet specific quality, safety, and performance criteria, minimizing risks during lifting tasks.

Importance of DIN Standards in Lifting Equipment

DIN standards are globally recognized benchmarks that promote consistency, safety, and reliability across various industries. For lifting equipment, adherence to DIN standards like DIN 15401 ensures:
